

## Jackson LDR update – District 1 Amendments

The Jackson Draft Neighborhood Character Zones have been updated to replace the outdated existing Legacy Zones (Town Square (TS), Urban Commercial (UC)).

The proposed new zones include **DC-2** Downtown Core-2, **TS-1** Town Square-1, & **TS-2** Town Square-2. Most of the design standards were carried over from the Legacy Zones and **DC** Downtown Core. However, a few of the key changes include:

- There is a proposed new building frontage for **TS-1**, that is named Town Square.
- **DC** was split into **DC-1** and **DC-2** character zones, based on the DC-2 being included in the Town Center Design Overlay.
- There are not any changes in **DC-1** from the original **DC** character zone.
- **DC-2** changes include: 20' 3rd floor stepback that allows a 40% encroachment to reflect western character design traditions for properties closer to the Town Square.
- There are a few new proposed standards such as a **preservation incentive** in **TS-1** to allow a small third story element significantly set back from the street.
- There are a few measurable standards that have been adjusted in **TS-1** to better reflect western character design traditions.
- **TS-2** has very similar dimensional requirements to DC-2, except TS-2 maintains a higher FAR and limits the size of a single building to 15,000 SF (same as TS-1).
- In TS-1 and TS-2, the thresholds for development review were increased for all approvals by 5,000 SF. For example, projects 10,000 SF and less will now only require Building Permit and DRC review – previously the threshold was 5,000 SF and less.

The following pages identify the changes made to the LDR. Key amendments are shown in red underline.

## Div. 2.1. All Complete Neighborhood Zones

Complete neighborhood zones are intended to enhance the locations in the community that are most appropriate for use and development into the most desirable places to live, work, and play. There are 2 types of complete neighborhood zones.

### 2.1.1. Character Zones (7/18/18, Ord. 1197)

Character zones, established in [Div. 2.2.](#), are character-based and established to implement the Comprehensive Plan. The character zones include:

- A. NL-1: Neighborhood Low Density-1
- B. NL-2: Neighborhood Low Density-2
- C. NL-3: Neighborhood Low Density-3
- D. NL-4: Neighborhood Low Density-4
- E. NL-5: Neighborhood Low Density -5
- F. NM-1: Neighborhood Medium Density-1
- G. NM-2: Neighborhood Medium Density-2
- H. NH-1: Neighborhood High Density-1
- I. CR-3: Commercial Residential-3
- J. CR-2: Commercial Residential-2
- K. CR-1: Commercial Residential-1
- L. OR: Office Residential
- M. DC-1: Downtown Core-1
- N. [DC-2: Downtown Core-2](#)
- O. [TS-1: Town Square-1](#)
- P. [TS-2: Town Square-2](#)

### 2.1.2. Legacy Zones (7/18/18, Ord. 1197)

Legacy zones, established in [Div. 2.3.](#), are carried forward from the previous LDRs, and it is the intent that they will be phased out over time as character zones are adopted and applied. The legacy zones include:

- A. ~~Town Square (TS)~~
- B. ~~Urban Commercial (UC)~~
- C. Business Park-Town (BP-ToJ)
- D. Mobile Home Park-Town (MHP-ToJ)

### D. Building Frontages

Building frontages set standards for building facades that face streets, and are required along all primary and secondary streets. Building frontages help to ensure that buildings address each street appropriately. They play an important role in shaping the built environment and enhancing the pedestrian experience. Specific rules for each building frontage are listed below. See [Sec. 2.2.10](#) through [Sec. 2.2.17](#), to determine which options are allowed in each zone. The rules of measurement for a building frontage are in [Div. 9.4](#).

Any use allowed in the applicable zoning district is allowed in any building frontage type, provided the use meets all other zoning and building code requirements. The applicant may use multiple building frontages along the same street frontage, provided that each frontage type is allowed in the applicable zoning district.

Institutional and transportation/Infrastructure uses may be allowed to comply with the building frontages on an 'as practicable' basis with Planning Director approval.

#### 1. Town Square

#### Description

In the Town Square Frontage, the main facade of the building is located at or near the public boardwalk, with at-grade entrances spaced at regular intervals. The Town Square Frontage is intended primarily for retail uses, and has glazing (windows and doors) at the sidewalk level.

## 2.2.15. DC-2: Downtown Core-2

### A. Intent

1. **General Intent.** The intent of the Downtown Core-2 (DC-2) zone is to provide for a vibrant mixed-use area with a variety of uses and amenities, consisting of wide sidewalks and buildings close to the sidewalk.
2. **Buildings.** Buildings can be up to 3 stories in height. Massing, articulation, openings, and step backs are used to reduce bulk and mass. Buildings are located close to the sidewalk, creating an attractive street edge. Large storefront windows, display windows, and entry features invite and encourage pedestrian activity.
3. **Parking.** Parking is primarily provided off-site on public lots and on-street. Parking provided on-site is underground or screened from view by buildings.
4. **Land Use.** Active and engaging uses are encouraged on ground floors but not required, with offices, apartments, single-family attached, and lodging primarily located on upper stories.
5. **Comprehensive Plan.** Based primarily on sub area 2.3 of the Comprehensive Plan.

### B. Physical Development

Standards applicable to physical development are provided in this Section. Where a cross-reference is listed, see the referenced division or section for additional standards. Standards in [Article 5](#). apply unless stated otherwise.

  - iv. On-street parking spaces shall be available for general public use at all times. No signs or actions limiting general public use of on-street spaces shall be permitted.
- d. **Fee-In-Lieu.** Required parking may be provided off-site through the Town's in-lieu fee program pursuant to the following standards.
    - i. **Fee.** The fee shall be a one-time fee commensurate with the cost of providing off-street parking and shall be used exclusively for such purpose. The Town Clerk shall accept fees in accordance with the parking fee schedule set forth by Resolution.

**E. Additional Zone-Specific Standards**

**1. Provision of Nonresidential, Nonlodging Parking**

- a. **Applicability.** The following options for providing required parking shall apply to allowed uses except:
  - i. Accessory Residential Unit (Sec. 6.1.11.).
- b. **Existing Parking Credits.** For properties with established parking credits per the Town Parking Credit Table (on reference with the Planning Department), the landowner may use such credits toward required parking. Credits are based on the amount of parking provided in 1988, as determined in 2005. Parking credits run with the land and are not transferable.
- c. **On-street Parking.** Required parking may be provided on-street provided the following standards are met.

- i. An on-street parking space shall have the following length of uninterrupted curb adjoining to the lot of record of the use.

| Uninterrupted Curb per On-street Parking Space |                    |
|--|--------------------|
| Parking Space Angle                            | Uninterrupted Curb |
| Parallel                                       | 22'                |
| 45°/60°  | 18'                |
| 90°  | 9'                 |

- ii. On-street parking shall not be provided along a red curb or other no-parking area put in place by the Town or WYDOT.
- iii. The on-street parking shall follow the established configuration of existing on-street parking.
- iv. On-street parking spaces shall be available for general public use at all times. No signs or actions limiting general public use of on-street spaces shall be permitted.
- d. **Fee-In-Lieu.** Required parking may be provided off-site through the Town's in-lieu fee program pursuant to the following standards.
  - i. **Fee.** The fee shall be a one-time fee commensurate with the cost of providing off-street parking and shall be used exclusively for such purpose. The Town Clerk shall accept fees in accordance with the parking fee schedule set forth by Resolution.
  - ii. **Assignment of Credits.** Parking credits purchased by fee-in-lieu run with the land and are not transferable.
  - iii. **Banking of Fee-in-Lieu Spaces.** Fee-in-lieu spaces may be purchased in advance and "banked" for future use.

2. **Loading Requirement.** Sufficient off-street loading facilities must be provided. The requirements of Sec. 6.2.2.E. are not applicable. The applicant must address how their specific loading needs are being met in the proposed application.
  
3. **Existing Floor Area Allowed.** Where the existing floor area on a site exceeds the allowed floor area ratio (FAR), the maximum allowed floor area shall be the lawfully existing floor area. The burden of establishing the amount of lawfully existing floor area shall be the responsibility of the landowner.

## 2.2.17. TS-2: Town Square-2

### A. Intent

1. General Intent. The intent of the Town Square 2 (TC-2) zone is to provide for a vibrant mixed-use area with a variety of uses and amenities, consisting of wide sidewalks and buildings close to the sidewalk.
2. Buildings. Buildings can be up to 3 stories in height. Massing, articulation, openings, and step backs are used to reduce bulk and mass. Buildings are located close to the sidewalk, creating an attractive street edge. Large storefront windows, display windows, and entry features invite and encourage pedestrian activity.
3. Parking. Parking is primarily provided off-site on public lots and on-street. Parking provided on-site is underground or screened from view by buildings.
4. Land Use. Active and engaging uses are encouraged on ground floors but not required, with offices and lodging primarily located on upper stories. Residential, as a principal use, is not allowed.
5. Comprehensive Plan. Based primarily on sub area 1.1 and 1.2 of the Comprehensive Plan.

### B. Physical Development

Standards applicable to physical development are provided in this Section. Where a cross-reference is listed, see the referenced division or section for additional standards. Standards in [Article 5](#). apply unless stated otherwise.

**E. Additional Zone-Specific Standards**

**1. Provision of Nonresidential, Nonlodging Parking**

- a. **Applicability.** The following options for providing required parking shall apply to allowed uses except:
  - i. Lodging Uses (Sec. 6.1.5.); and
  - ii. Accessory Residential Unit (Sec. 6.1.11.).
- b. **Existing Parking Credits.** For properties with established parking credits per the Town Parking Credit Table (on reference with the Planning Department), the landowner may use such credits toward required parking. Credits are based on the amount of parking provided in 1988, as determined in 2005. Parking credits run with the land and are not transferable.
- c. **On-street Parking.** Required parking may be provided on-street provided the following standards are met.
  - i. An on-street parking space shall have the following length of uninterrupted curb adjoining to the lot of record of the use.

| Uninterrupted Curb per On-street Parking Space |                    |
|--|--------------------|
| Parking Space Angle                            | Uninterrupted Curb |
| Parallel                                       | 22'                |
| 45°/60°  | 18'                |
| 90°  | 9'                 |

- ii. On-street parking shall not be provided along a red curb or other no-parking area put in place by the Town or WYDOT.
- iii. The on-street parking shall follow the established configuration of existing on-street parking.
- iv. On-street parking spaces shall be available for general public use at all times. No signs or actions limiting general public use of on-street spaces shall be permitted.
- d. **Fee-In-Lieu.** Required parking may be provided off-site through the Town's in-lieu fee program pursuant to the following standards.
  - i. **Fee.** The fee shall be a one-time fee commensurate with the cost of providing off-street parking and shall be used exclusively for such purpose. The Town Clerk shall accept fees in accordance with the parking fee schedule set forth by Resolution.
  - ii. **Assignment of Credits.** Parking credits purchased by fee-in-lieu run with the land and are not transferable.
  - iii. **Banking of Fee-in-Lieu Spaces.** Fee-in-lieu spaces may be purchased in advance and "banked" for future use.

2. **Loading Requirement.** Sufficient off-street loading facilities must be provided. The requirements of Sec. 6.2.2.E. are not applicable. The applicant must address how their specific loading needs are being met in the proposed application.
  
3. **Existing Floor Area Allowed.** Where the existing floor area on a site exceeds the allowed floor area ratio (FAR), the maximum allowed floor area shall be the lawfully existing floor area. The burden of establishing the amount of lawfully existing floor area shall be the responsibility of the landowner.
