10.22 District 22: Southern Highway 89	<p>Wildlife is our number one priority in TC, this includes South Park and other "nodes".</p> <p>South Park is an important rural area, it has fine scenic vistas and a slower pace. Next to the Snake, it is one of the most interesting areas for water fowl viewing and is critical for nesting. It is also our southern gate. I am very concerned about the odd, new, and vague language regarding protections in South Park. We do not want housing expansion, we seek to protect wildlife. Restore the language of the "94 Plan, eliminate the very strange wording that states South Park will be built out from 'north to south starting at High School Road.' Accidental? In-fill in town should be exhausted before considering expansion into outer areas. Do not use the NW South Park area as a dumping ground for problems generated by other areas of the county.</p> <p>Preserve the rural scenic nature of South Park Loop and High School Road. Any development in So. Park should allow wildlife permeability.</p> <p>No commercial development. No redlining.</p>	Julie McIntyre	5/17/2009 12:04
10.22 District 22: Southern Highway 89	<p>"Encourage upgrades to this gateway district" is not clear. What upgrades are desired?</p>	Save Historic Jackson Hole	5/15/2009 15:49
